# THE LIGHTER SIDE

Life is an opportunity, benefit from it.  
Life is beauty, admire it.  
Life is a dream, realize it.  
Life is a challenge, meet it.  
Life is a duty, complete it.  
Life is a game, play it.  
Life is a promise, fulfill it.  
Life is sorrow, overcome it.  
Life is a song, sing it.  
Life is a struggle, accept it.  
Life is a tragedy, confront it.  
Life is an adventure, dare it.  
Life is luck, make it.  
Life is life, fight for it."

By Mother Teresa

The greatest fear  
in DC is that an  
executive branch,  
uncontrolled by  
the establishment,  
will lead to the exposure of the  
corruption that has become the  
foundation of our government.

*This is the real reason Trump  
is under constant attack.*

*"Twister"*

## What a profound little paragraph .....

## Stated way back in 1931 and it says it all

"You cannot legislate the poor into freedom by legislating the wealthy out of freedom. What one person receives without working for, another person must work for without receiving. The government cannot give to anybody anything that the government does not first take from somebody else. When half of the people get the idea that they do not have to work because the other half is going to take care of them, and when the other half gets the idea that it does no good to work because somebody else is going to get what they work for, that my dear friend, is about the end of any nation. You cannot multiply wealth by dividing it."

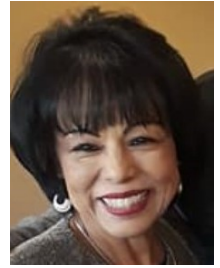

Dr. Adrian Rogers, 1931

"God gave us this great and good land,  
but it is up to us to make it flourish, to  
preserve its freedom, and to see it grow  
in greatness.

Ronald Reagan, August 31, 1986

## PRESIDENT'S MESSAGE

I am delighted to serve as your new president for this year and I am deeply grateful for your support. This is a wonderful organization of like-minded Republican women who love the Santa Clarita Valley and our country. I would like to take this time to thank our past president, Marie Cruz for her outstanding leadership. Her passion and commitment to our club has helped this club thrive and be successful. As with any leader, she had a strong team that worked along-side her to get things done. I extend my thanks to all the past officers for their dedication. I realize that I have big shoes to fill as the new president but with your help we can make our club even stronger.

At our January general meeting, we started out by doing some brain-storming of ideas and setting some goals for our club. Debbie DiPrimio, VP of Programs, did an excellent job facilitating the meeting. Thank you all for your participation, suggestions and list of potential speakers for our monthly meetings. We have already started to schedule some of these speakers. It is important for our members to become informed on issues. Our speaker's program is one way of helping our members to become better informed.

Very soon you will be seeing upgrades to our website as well as making it more relevant to our members. Stay tuned.

The North Los Angeles County Republican Women Federated is committed to growing our membership, so bring a friend or two to the next meeting.

Remember, this is your local club. Your input is important. Let's make a difference.

God Bless America!

Gloria

## LEGISLATION by Mary Hampton

Here are a few of the new California laws passed and effective January 1, 2019

**Business/Employment/Workplace** - Minimum Wage Increases to \$11 an hour for employees who work at a company with 25 employees or less and to \$12 an hour for employees who work for companies with 26 or more employees. This is part of plan for minimum wages for all employees to reach \$15 an hour by the year 2023. **Additionally AB 1066** – over the next four years, farm laborers will receive time-and-a-half for over 8 hours in a day, or over 40 hours in a workweek. Small farms have an extra three years to comply.

**SB 820 – Confidentiality Agreements** prohibited in cases of sexual harassment, assault and discrimination that are signed as of Jan 1 2019 unless claimant requests the inclusion of the provision. **AB 2770** – protects victims of sexual harassment and employers from being sued for defamation by the alleged harasser in cases of a complaint of sexual harassment and while the employer conduct the internal investigation.

**Breast Feeding** -Businesses must make a reasonable effort to provide a lactation space and breaks for nursing mothers for pumping. **AB 1976** states the space must now be a private area that is not a bathroom

**Female Board Members Mandated - SB 826** – mandates that publicly owned companies are required to have at least one women on the Board of Directors by the end of 2019. By the end of 2121, corporations that have 5 directors are required to have at least two female directors, or three if the corporation has six or more directors. There are expected to be legal challenges to the implementation of this bill.

**Gun Control—SB 1100** raises the age limit for the purchase of long guns such as rifles and shotguns from 18 to 21. **AB 2103 Concealed Weapon permit** – Requires applicants to undergo a minimum of eight hours of training and pass a live-fire shooting test. **AB 3129** Anyone convicted of misdemeanor domestic violence going forward will lose his or her right to own a firearm. **SB 1200** Allows temporary confiscation of magazine and ammunition to the list of items taken with a gun violence restraining order. **SB 1346** Bump stocks (rapid fire device used in 2017 mass shooting in Las Vegas) explicitly banned in California.

**Gender Identification SB 179** creates a ‘nonbinary’ gender category designated by the letter “X” on official Driver’s License documents.

**Plastic Straw Ban** - Servers at sit-down restaurants can no longer hand you a plastic straw with your drink unless the customer specifically asks for one.

**Criminal Justice** - To encourage rehabilitation over punishment, SB 439 establishes 12 years as the minimum age for prosecution in Juvenile court – unless a minor younger than 12 has committed murder or rape. **SB 1391** eliminates the ability to try a defendant under the age of 16 as an adult. In effect sends them to a juvenile detention facility instead of prison.

**Marijuana -AB 1793** individuals can petition to overturn or reduce old convictions for possession, cultivation and distribution and directs the state to identify by July all offenses eligible for expungement or resentencing (if prosecutors do not object) clean up those criminal records. Could impact for than 200,000 cases.

**Ignition Interlock Devices – SB 1046 AKA IID**, measures blood alcohol after an individual blows into the device and prevents a car from starting if the driver is deemed not sober. Repeat DUI offenders, and first-time offenders involved in injury crash will be required to have an IID installed in their vehicles.

**Health Care - SB 910** essentially blocks recent federal rule that would reintroduce low-cost, bare-bones health insurance to the marketplace that cap benefits, exclude prescription drugs and services like mental health care, and denying patients with pre-existing conditions. **SB 1375** – prevents employers from forming their own “association health plans” that are exempt from coverage requirements in the Affordable Care Act. AB 2499 requires health plan to spend at least 80 percent of each premium dollar on health care.

**Patients Right to Know - SB 1448** Physicians who are disciplined by their regulatory board for Sexual misconduct with a patient, drug abuse that can harm patients, criminal conviction involving harm to patients, or inappropriate prescribing resulting in patient, must notify their patient prior to their visit:

**Sale of Pets - AB 485** prohibits the sale of breeding dogs, cats and rabbits in pet stores and requires these animals be obtained from animal shelters or rescue groups.

**Beverages for Children – SB 1192** Restaurants in California may only serve water or milk without flavor in children’s means that combine food with a drink. Patrons can order other if they wish.

## When a 14-point Republican lead disappears

By Shawn Steel - - Tuesday, November 27, 2018

### **ANALYSIS/OPINION:**

Young Kim was poised to become the first Korean-American woman elected to Congress.

Her 14-point lead was the lone bright spot on an otherwise dismal night for Orange County Republicans. But, over the past week, Republicans have watched the first-generation immigrant's lead evaporate. With thousands of provisional ballots left to count, her commanding lead is now underwater. She lost one week after the election.

There's no evidence of ballot box shenanigans. No need. Democrats know it's easier to erode voter integrity laws than to stuff ballot boxes.

How does a 14-point Republican lead disappear? Merciless and unsparing, California Democrats have systematically undermined California's already-weak voter protection laws to guarantee permanent one-party rule.

**Non-Citizen Voting:** California has expanded voter eligibility — with some communities granting illegal immigrants the right to vote. In 2016, San Francisco approved a measure that allows “people in the country illegally and other noncitizens the right to vote in a local election,” according to the Associated Press. This year, San Francisco spent \$310,000 in tax dollars to register 49 non-citizens to vote in a school board election.

**Inmate Voting:** Not to be outdone, neighboring Alameda County organized taxpayer-funded voter registration drives in county jails to register a record number of inmates. California law allows convicted criminals in county jails, on probation, on mandatory supervision, on post-release community supervision, or on federal supervised release to vote. Just about the only criminals barred from voting in California are felons in prison or on parole.

**Felon Voting:** Even California felons have been enfranchised, a side effect of California's radical criminal justice experiments. By downgrading numerous crimes from felonies to misdemeanors, Proposition 47 has enfranchised tens of thousands of convicted criminals previously barred from voting while on parole. The state's prisoner early release program has also expanded the voter rolls. In 2015, 60,000 convicted felons officially regained their voting rights after the state refused to appeal a lower-court decision that would have denied them the right to vote.

**Motor Voter Fraud:** Every person in California that interacts with the Department of Motor Vehicles is automatically registered to vote. This has predictably led to tens of thousands of cases of voter registration problems. The state's Motor Voter program has come under fire for double registering as many as 77,000 people and registering as many as 1,500 ineligible voters. The state's bipartisan oversight agency expressed concerns about “serious problems with ensuring that the New Motor Voter Program works as intended and promised.” In October, the Little Hoover Commission called for an independent audit of the program and warned that “voter confidence in a fair and legitimate electoral process will be undermined, if not shattered.”

**16-and-17-Year-Old Pre-Registration:** This cycle also marked the beginning of California's pre-voter registration program for 16- and 17-year-olds. Of course, if every voter is automatically registered through the Motor Voter program, why would anyone need to pre-register? Pre-registration is a thinly-veiled effort to capture voters while they're young and more likely to identify as liberal Democrats. Of the nearly 89,000 minors that participated in the program, only 10 percent registered as Republicans.

(Shawn Steel Article -Continued from Page 8)

**Absentee Ballots Automatically Mailed to Every Voter:** In 2016, California approved a new law that allows counties to mail every voter an absentee ballot. This election, every voter in Madera, Napa, Nevada, Sacramento and San Mateo counties received an absentee ballot — whether they requested one or not. Beginning in 2020, every county in California except one will be allowed to follow suit. Outrageously, Democrats carved out a special exception for Los Angeles County, where they maintain a significant advantage in voter registration numbers. In just four years, the number of absentee ballots distributed in California has increased by 44

**Conditional Ballots:** California has effectively adopted same-day voter registration with the introduction of “conditional voting.” This election cycle, voters who missed the 15-day voter registration deadline could request to cast a conditional ballot percent. “Nearly 13 million voters have received a ballot in the mail, compared to just 9 million in the last gubernatorial election in 2014,” notes Paul Mitchell, vice president of Political Data Inc.

**Ballot Harvesting:** Is illegal in most states. But not California. As if it wasn’t enough for every person to be automatically registered to vote and receive a ballot, Democrats have made it easier for their campaign operatives to collect those absentee ballots. Also, in 2016, state lawmakers eliminated the ballot protection law that enabled only a trusted family member to return another voter’s ballot. Assembly Bill 1921 now allows anyone to return an absentee ballot. The law has encouraged campaign operatives to engage in coercive tactics. One Democrat voter described coercive intimidation tactics employed by a Democrat campaign in a 2017 special election, leading even the liberal Los Angeles Times editorial board to criticize the law.

**Ballots Accepted Up to Week After Election Day:** In California, voting doesn’t stop on Election Day. Absentee ballots need only be postmarked by Election Day, with ballots counted that arrive up to three days late. If ballots are sent to the wrong county, the ballot is valid for an additional four days. As Mr. Mitchell points out, “That means you literally have seven days after an election where a county could still be receiving legitimate ballots.”

**Second Chance for Rejected Ballots:** Just 50 days before the election, Democrats snuck in one more change to the state’s absentee voting laws. In September, Gov. Jerry Brown signed into law Senate Bill 759, which requires elections officials to notify every voter whose ballot was rejected due to a mismatched signature.

In 2018, this election, a 14-point lead wasn’t enough for a Republican victory. By 2020, a 20-point lead on Election Night won’t be safe.

## FAREWELL MESSAGE

Thank You to Each Member, Associate Member and All Republican Friends:

It has been a pleasure being your President and watching our club grow . Each one of you is a very special person and we are fortunate to have such a cohesive group with the same purpose in mind.

Your support has been extraordinary and I am blessed to have had this opportunity in sharing all of our achievements and milestones. With our new officers installed and already in full gear planning some fantastic programs, I am excited in participating and will do all that I can to continue to grow our club. As the newly elected President of Los Angeles County Federation of Republican Women, my hopes are that our club will be one of the frontrunners in promoting our basic Republican values.

Thank you for your support at the Leadership Conference in January . Our club had the most in attendance and participation. I truly believe that if we go “back to the basics” and see what made us such a great Party (GOP), we will continue to prosper.

God Bless each of you and please support President Trump with your prayers and notes and letters complementing him on a job well done. Thank you all and the very best to our President Gloria and the new board.

*“Marie”*

This Letter to the Editor was submitted to Santa Clarita Signal by our member Millie Hubert. Thank you for taking the time to share these great thoughts.

## **THE UP SIDE OF TRUMP**

I voted for our current President because I wanted a businessman in office instead of a politician. I wanted someone who would negotiate a deal for the good of all the United States, not just for the constituents of individual states. I wanted someone who would keep campaign promises. What I got was a politically incorrect man who shows us all of his personal warts. I kind of like this. I may not approve of him but at least I have a person who tells it like it is and not a politician who only tells us what he thinks we want to hear to get re-elected. What we have is a President who is attempting to keep the promises he made when running for election.

So far he has lowered the personal income tax we pay so we have more money to spend on ourselves instead of our non-working federal government. He lowered corporate taxes. Ah, the trickle down theory. There are economists on both sides of this debating whether this works. He has discontinued many regulations that thwarted business growth. There are the two reasons why the economy is booming. Statistics show there is less unemployment, especially among the black and Hispanic population. He put coal miners back to work. Yes, there is global warming, but (the impact of U.S.) coal is minuscule compared to the pollution in China and India. Until they take care of their pollution our solutions are having very little affect.

He s attempting to make trade agreements more fair and has done so with Canada and Mexico. He is lowering our Armed Forces' commitments in Syria (I don't know about this one). And he is attempting to get his promised wall—a wall that our Democrat politicians once were in favor of but now say no because they are outwitted in the Presidential election and want to thwart everything our President asks for. We need a wall, not jut for keeping gangs and drugs out but also for humanitarian reasons. We need a wall first to stem the tide and help our border patrol. It will certainly deter the coyotes hey pay. My heart goes out to all people who want a better life that country offers, but first there must be an orderly way to accomplish this.

### Capital Connection

Happy New Year Ladies!

This is going to be a very energetic year as we travel the Path to our September NFRW Convention in Indianapolis. The journey will take a renewed effort from each of us to continue building and expanding our membership in preparation for the crucial 2020 presidential election.

As we gear up our forces for the upcoming season, I ask you to please continue to call and write your Senators and Congressional representatives in support of **President Trump** and his work to keep our country safe. The voices and messages they receive are instrumental to how they vote on this matter. Let's make sure the voices they hear belong to Republicans

We are working on our upcoming NFRW Board of Directors meeting in Alexandria, VA, on March 29-30 and invite you to attend (the Official Call will go out at the end of February). We have information and speakers lined up that we know you will be excited about, as well as planning a "Back to Basics Reboot" that will help you plan for 2019 and beyond. Please be aware of the Achievement Awards' deadlines for Convention, which are posted on the NFRW website under the Members tab.

I say once again, please work together in your states and clubs to be peacemakers. The pathway to success is built on our ability to work together as a team. Let us continue to be steadfast in our desire to strengthen our clubs and build goodwill in our neighborhoods.

## EDUCATION—HOW IT RELATES TO OUR FUTURE LEADERS

I HAVE POSTED THIS ON FB so more people will read this and become concerned about our public school system. This is the Editor's choice to post in this newsletter and you are welcome to share it as you like or not - Statement by Marie Cruz, Editor for NLACRWF Newsletter, The Republican

I do not believe that the school system can force our children to take Islam study. It's just like when I was in school we were all required to take a course on a foreign language but we were given a choice. It seems that choices have been taken away from our kids and grandkids now.

God Bless America. I think that the entire public school system should be revamped because it is not working. Dr. John Eastman just spoke about this very subject and recommended that the public school system should be abolished because of the way they are teaching our children. Choice is not something that is given to the students.

THIS ISSUE IS EVEN MORE PRONOUNCED IN MY THINKING AT THIS TIME SINCE THE MARINE WHOSE DAUGHTER (IN LA PLATA, MD SCHOOL ) REC'D A FAILING GRADE IN HISTORY BECAUSE SHE REFUSED TO TAKE THE ISLAM STUDY COURSE. INCIDENTALLY, NO ALTERNATIVE COURSE WAS OFFERED. HER MARINE FATHER BROUGHT THIS TO THE FOREFRONT, SINCE HE FOUGHT IN IRAQ AND AFGHANISTAN, AND IS VERY AWARE OF HOW DANGEROUS THIS RELIGION IS. IT'S DEFINITELY NOT ONE OF PEACE.

I know there are some of you that are Democrats, and love Obama, but this is for Christians first, politics later. I do pray that it doesn't offend anybody with the truth of the message, but it has to be sent. If you love your Lord first and your politics later, then you will appreciate this message. If you don't, I'm sorry I judged you wrong.

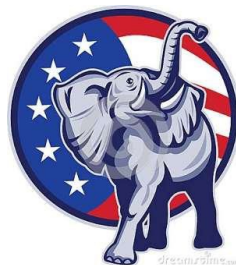

When we get 100,000,000, that's one hundred million, willing Christians to BOND together, voice their concerns and vote, we can take back America with God's help. Become one of the One hundred million...

Then let's get 200 million. It can be done just by sending this email to your friends. Do the math. It only takes a single willing heart and a fed up SOUL. God Bless America and Shine your light on Her!

Now President Obama is encouraging schools to teach the Quran for extra credit, while at the same time, they cannot even talk about the Bible, God, pray, or salute the American Flag.

The direction this country is headed should strike fear in the heart of every Christian, especially knowing that the Muslim religion believes that if Christians cannot be converted, they should be annihilated.

Share this on your FB Page or copy and paste and send to your email address list. **Send it the person who sent it to you and keep passing it on!.. Let them know that indeed, it was sent out to many more!**
